

Chapter 6 Questions.

Binary Decision Diagrams.

Question 1

Which of the following is a reduced, ordered BDD representing the formula $(x \wedge \neg y) \vee z$?

5. None of the above.

Question 2

Which of the following statements is true about the BDD

1. It represents the formula $\neg x \wedge y \wedge z$.
2. It represents the formula $x \wedge \neg y \rightarrow z$.
3. It is not reduced.
4. It is not ordered.
5. None of the above.
